ABOUT SCAN HEALTH

SCAN Health is an international knowledge mobilization network with a vision to advance global capacity to adopt and scale best practices in healthcare supply chain to offer traceability of products and care processes from bench to bedside to patient outcomes.

ABOUT THE VIRTUAL BUSINESS CASE COMPETITION CHALLENGE

The competition is in partnership with HIMSS and proudly hosted by the Odette School of Business. It provides students from around the world an opportunity to showcase their knowledge and skills to create innovative solutions that address a real-world health system challenge. This year's competition focuses on supply chain challenges of sourcing personal protective equipment to protect patients and health workers during COVID-19. Participating students will take the role of a consulting team advising the Government of Canada on the development of a coordinated healthcare supply chain. [For more information, please visit our website.](#)

ELIGIBILITY

The business case challenge invites all university undergraduate and graduate students enrolled in the 2020/2021 academic school year, globally, to participate. The Business Case will be made available to all registrants during Round 1 on November 9, 2020.
